

VIRGINIA ASSET MANAGEMENT

The power of independence.

ROBBIE WHITE

FINANCIAL ADVISOR

Robbie is an Alumni of the Virginia Military Institute where he played Football during his four years and graduated with a degree in Civil and Environmental Engineering. While in the engineering industry, he was a part of the successful establishment and growth of a Charlotte, NC branch office which blossomed from 2 employees to over 20 during his tenure. Through his personal and professional experiences during that time, he began to realize that his greatest passions were being the resource for people when they needed help or advice and finding solutions for difficult or complicated problems. With that in mind, he made the decision to transition over to Virginia Asset Management and the Financial Advisory business.

After transitioning to the advisory business, he has focused on providing comprehensive planning solutions to business owners – involving high net worth estate planning, succession planning (family, third party, key employees), key person planning, and utilizing retirement planning tools and other vehicles and planning concepts only available to business owners. He also has a substantial interest and practice helping individuals and families understand and utilize the financial tools available to them to plan for and improve the outlook of their financial independence, mitigate taxes when possible, and protect their families from financial risk.

Outside of the workplace, Robbie enjoys exploring the outdoors with his wife and two sons, and their German Shorthaired Pointer named Hank. Whenever he isn't finding the next hike or preparing for the next hunting season, he can be found out exploring all the food and breweries that the Richmond area has to offer.
